HE CHURCH FOR ALL. ALL FOR THE CHURCH

Our neighbor has a firm opinion about children and pets: "When a boy is old enough to assume responsibility for the care of a dog, it's time enough for him to have one."

But our Davey is growing up with his dog - his frolicking playmate today, his faithful friend and protector tomorrow. Our neighbor has an opinion also about children and God: "When my son is able to weigh the claims of religion with a mature mind he can decide for himself whether he wants to go to Church."

What heritage would men have of Truth and Right and Freedom if each generation had not imparted its blessings to the next? It is the faith f our fathers which is ours to cherish, and to teach our children. Let them grow up with that Christian Faith and it will have its rightful place in their lives.
